

INCLEMENT WEATHER CONDITIONS

In the event of snow and ice at the higher elevations, some bus routes may be canceled. When these routes are canceled, students may be taken to alternate snow route locations to catch the bus. These alternate snow route locations and times will be posted on our district web sight and will be given out to parents and students who reside in the higher elevations. In severe conditions there may be a 2 hour delay or no school at all. This information will be given to the local TV and Radio stations. Parents may also go online to www.flashalert.net to check for school closure information.

2009/2010
